

DATA SHEET:

Poly® VVX® 311 Business Media Phone

Highlights

- Full-featured 6-line business-class IP phone supporting Power over Ethernet (PoE)
- 2 x Ethernet 10/100/1000, speakerphone, caller ID, call hold, 3-way conferencing, and more
- Easy installation and secure remote provisioning, as well as menu-based configuration
- Supports up to 3 Poly® VVX® Expansion Modules or Color Modules adding up to 120 or 252 line keys per phone respectively
- HD audio for unsurpassed voice clarity and enhanced speaker quality
- Supports a recent calls list, and a corporate contact directory
- Shared call/bridged line appearance cutting down on missed calls

Rich Phone Features and SIP Compatibility

The Poly® VVX® 311 6-Line IP Phone with 2-Port 10/100/1000 Gigabit Ethernet Switch provides advanced voice and data communications - features small businesses need to stay productive and responsive. Based on Session Initiation Protocol (SIP), the Poly® VVX® 311 has been tested to ensure complete interoperability with Metronet's HPBX service.

Secure and Easy to Manage

The Poly® VVX® 311 utilizes standard encryption protocols to perform secure remote provisioning and unobtrusive in-service software upgrades. Metronet's remote provisioning tools allow end-users to manage the features of their device and enable Metronet to deliver high-quality support to our subscribers.
